As a Senior Command Centre Analyst and Team Leader for the Business Development and Advanced Analytics team at the Patient Flow and Capacity Command Centre of King Faisal Specialist Hospital and Research Centre in Riyadh, I have leveraged my 18 years of experience in business, sales, and IT to drive transformative changes in the medical industry. With a solid foundation in Computer Science, I have played a pivotal role in the creation of the Command Centre solutions including the weekly report. My leadership transcends analytics; I guide a dynamic team focused on both business development and the implementation of innovative analytical methods. Equipped with expertise in artificial intelligence and Python programming, I am committed to fostering innovation and striving for operational excellence.
